NUMBER 24

The Great Gathering.

During the two days conference, 1st and 2nd of April, in the interest of the returning soldiers and sailors, beginning at the Methodist Church, right at 2,300 people of Adair County were in attendance. Mr. D. H. Lyon says it is the Banner Conference of the State. Mr. Lyon is the Superintendent of this District of nine counties for the State Y. M. C. A. Beginning Tuesday afternoon at 2 o'clock, every minute was crowded with the choicest of community work, brought out by experts along the several lines in behalf of our boys now returning. Mr. H. V. McChesney, a lawyer from Frankfort, who is yet in Y. M. C. A. work with headquarters at Camp Taylor, made most telling addresses, on the soldier and sailor in connection with social and recreational life, civic life, religious life and the real value of the soldier and sailor in our midst now being fitted to home affairs, church affairs and business affairs. His speeches had most salutary effect upon the large audiences.

A very unique contribution was made by Chaplain S. P. Stapp, from overseas. His "pictures" of real things among our men in action, those made of words, were very plain to earnestly attentive people.

He spoke upon "the soldier and sailor" in connection with industrial and economic needs, also the educational needs, giving the manner in which many of our boys learned to write, and sent their first letters home. Then, how the Government has made arrangements to give every returning disabled soldier and sailor an opportunity to complete a college course. This kind of help is to continue. Mr. Stapp was fine.

The great Banquet in the Gymnasium at High School to the soldiers and sailors was a complete success. The ladies of Adair County Red Cross chapter served the dinner with the help of a score of the most beautiful young ladies in the county.

The room was packed full. Camp songs, folk ballads, and "Pep" side splitters were rendered all thro the hour. After dinner, speeches from the boys and others were enjoyed by all. About 1,000 people were on the grounds. Lieut. Miller paraded the "veterans" from the Public square and back to the Baptist church, where a beautiful and appropriate memorial service was held. Addresses were made by Rev. Bennett, of Lindsey-Wilson, and Rev. Watson, the chairman of the Conference. The chairman read the names of the eighteen noble boys who gave their lives for Liberty. They are as follows:

Charlie Ballou, of Columbia, killed in action.

Jacob Biggs, Cane Valley, died of disease.

Estill Blair, Garlin, died of disease.

Robert Bryant, Columbia, died of wounds, overseas.

Rollin Burbridge, Fairplay, accidentally killed at Camp Taylor.

Walter E. Humphress, Holmes, died of disease.

Clarence Jackman, Columbia, killed in action.

Virgil Lasley, Columbia, died of disease.

John S. McQuary, Columbia, killed in action.

Chapman Moss, Weed, died of disease.

Benjamin Powell, McGaha, killed in action.

Bryan Royce, Columbia, died of wounds overseas.

Deed Smith, Columbia, killed in action.

John L. Smith, Columbia, died of disease.

Wesley Turner, Eunice, died of disease.

Joseph T. Wheat, Columbia, died of disease, overseas.

William Wilson, Columbia, died of disease.

Melvin Guy York, Breeding, killed in action.

Charlie Hardin, Jelliton, died of disease.

A most touching solo was rendered by Mrs. Homlett, and prayer by Bro. Williams. A very large housefull of people gave respectful attention. A service flag with 18 gold stars was exhibited.

The Demobilization and Reconstruction Conference came to a close with a fine audience at Baptist church, Wednesday night. At this meeting the duet by Mesdames Hamlett and Russell was beautifully rendered and highly appreciated. Every body was deeply impressed with its wide sweep of real power. Much of the success of this gathering is due to the untiring efforts of Rev. B. T. Watson, who put his whole soul in making the entire gathering a success.

Mrs. C. M. Russell was music director, getting up all the music for the Conference and banquet. Those who know her abilities know that she did her part well.

To Vote For or Against Good Roads.

The Fiscal Court of Adair County made an order, last Thursday, calling a special election throughout the county for Saturday, the 31st of May.

The question to be submitted is as follows: "Are you for or against a 20 cents road tax, to run for five years, in addition to the tax that is now being paid."

The county will be canvassed and the proposition thoroughly explained before the election. It is the only way to get good roads.

Wanted.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Sold by Paul Drug Co. Adv.

J. B. Barbee, purchased last Friday, from Mrs. Mary Jane Blakeman, 93 acres of land fronting the Campbellsville pike, the line beginning where the toll gate now stands, running along the pike to the Curd place. On the back side, joining the land recently sold by C. S. Harris, is some very fine timber. The consideration was \$10,230. Mr. Barbee calculates to erect a nice brick residence almost opposite the property of Mrs. Mary Biggs.

No. 1 Timothy hay for sale. It is baled. It is at Young & Jones' freight house. 24-2t

Mr. H. J. Henson is one of the most active men in Adair county for his age. He is now 82 years old. In his time he has handled many mules, selling both in the South and at home. He lives on a good farm, near Green river, and grows all kinds of products. He has been voting the Democratic ticket since he reached his majority, and will express his choice for Governor at the August primary.

Fertilizer.

I have on hand the V. C. fertilizers, the Red Cross, 14 acid. Also 16 and 20 acids, also a good tobacco grower. See me before making a purchase, and my get my prices.

As We See The Right.

Does your desire for peace, your patriotic love of liberty, your ardor and passion for your country stand the pocketbook test?

This will be the question which every American must answer, April 21, when the next government loan is to be floated and the people again asked for subscriptions.

There is gone now the emotion of war. No longer is there the picture of the American boy with the Stars and Stripes fighting on a foreign shore. No longer does his danger and the menace of ex-Kaiser Wilhelm furnish the dramatic appeal to fire the thoughts and hearts to the point of enthusiasm.

But of all the loans that have been floated, this one should be taken with more joy and more enthusiasm than any of its predecessors.

Looking back to the dark days when Germany seemed so far from beaten and when every day meant death, danger and destruction, it is easy to recall the extravagant phrases which then described the passion for peace.

There were fathers who would have paid fortunes to have ended the war one day sooner—if that day their sons were to be sent to the firing front. There were mothers who would have thought no financial sacrifice too great if the war could have been ended in 1918—as it did end. Peace then seemed to be so wonderful a thing—and so priceless.

This is the loan for peace and the price we pay for peace.

The dollars which are needed are to be spent to insure us against any future wars—for they go for the things which gave to the world the spectacle of an indignant republic turned militant, and that spectacle will warn any nation for generations that this county is unbeatable.

Those dollars go for the boys who are in France and in camp, go for their wages and their equipment.

They are needed to pay for the guns, the airplanes, the ships which were obtained over night and which spelled doom for the boche.

These are the dollars which brought peace—that priceless thing which ended the era of madness and devastation.

Get ready to answer to your conscience. Are you fit to live in peace? Were you worth fighting for? Are you really an American, ready to sacrifice for American ideals?

The answer is the size of your contribution to the Victory loan.

Attention Farmers.

We are in the market for a limited amount of wheat. Farmers who have wheat to sell, see us before selling elsewhere. We will make it to your interest.

Myers-Barger, Columbia, Ky. 24-4t

Mr. W. N. Holt, who lives in the Craycraft country, was in the News office last Thursday and stated that in his locality he never saw wheat, oats and grass looking better at this season of the year. He also stated that all farmers were busy, plowing, and that all available ground would be put in. The health of the community he said was good, and that a new dry goods store had been recently opened by W. W. Sinclair, who was meeting with encouragement.

Since our last report the County Clerk has issued the following marriage licenses: Jas. B. Hovious and Myrtle Pike. They live at Knifley. Jas. B. Page and Carrie Hancock, who reside at Cane Valley.

Dr. L. C. Nell, who has been the Poor-house physician resigned last week and Dr. S. A. Taylor was elected in his stead. Dr. Taylor was elected in his stead. Dr. Taylor lives close to the county farm.

Earl Williams bought of Sam Burdette, last Thursday, six mules for \$900.

Died in Texas.

Ebenezer Lafayette Dohoney died at his home, Paris, Texas, on the night of the 29th of March, 1919, at 11:15 o'clock. He had been confined to his room and suffering, the greater part of close to two years. His daughter wrote me that on the night of his death; he had some hot milk at supper, and had gone to sleep. Later on, the watchers saw his breathing was short and irregular for a few minutes; then almost without a struggle it ceased, and his spirit took its flight to the realms eternal. She said when he realized he could not get well he prayed constantly to be freed from his poor tired sick body. He was not afraid of death. Peyton and Polly Dohoney were both natives of Adair Co. Fathers' farm was on Big Creek, and for their children were reared. E. L. Dohoney was their eldest and myself the youngest child, and all our lives we have been chums. In 1859, he adopted Texas as his home, and there we have dwelt far apart, many a word and deed of his; has made my heart happy. And oh, how I shall miss him as I finish life's journey alone. E. L. Dohoney was born Oct. 13th, 1832. He seemed to specially love his native county, Adair, and I think some relatives and other people there will remember him. I am his sister.

Miss Kate Dohoney, R. R. 1, Trinity, Alabama.

I have in stock Overland cars and repairs for Fords. After the 10th of this month I will have in my Garage an experienced machinist. Will be able to do work at all times. 24-2t

G. M. Stevenson.

Progress Range at Murray.

Dr. D. C. Love Shelly, a prominent physician of Howe, Texas, and a brother of Rev. S. G. Shelly, of this place, died at his home, March 30th, of blood poison. Dr. Shelly was a leading member of the Methodist church, took great interest in education; was much interested in the Southern Methodist University, at Dallas, and gave of his means in establishing it. He leaves a wife and daughter, the latter about fifteen years of age.

The farmers of this county should talk good roads and be ready to vote the 20 cent additional tax. The farmers will be benefitted by the building of good roads more than any other class. Good roads will enhance the value of all lands in the county.

A person who is opposed to spending a little money for good roads, is not enterprising, neither is he for the improvement of the county. He is a back number, satisfied with the customs and doings of one hundred years ago.

Squire Jo Nat Conover having removed to Monticello, his office, as magistrate of the Columbia district, is vacant. Gov. Stanley will appoint. Squire Melvin Conover would give entire satisfaction.

Columbia Lodge, No. 96, F. and A. M., will meet next Friday evening at 7 o'clock. Work in the 2d and 3d. Members of sister lodges are invited.

Eld. W. G. Montgomery, of Campbellsville, will deliver the sermon for the C. W. B. M., on Easter Sunday afternoon at 3 o'clock. Every body invited to attend.

I have a thoroughbred jersey Bull \$1.50 at the gate.

24-2t Jo Barbee.

New Entrance to the Cemetery.

Mr. J. O. Russell is superintending the building of an entrance to the cemetery which will be a handsome piece of work when completed. There will be fifteen concrete steps, three, five and seven. There will be two columns, globes upon the top of each, and iron gates. The work is being done by Mr. Buck Mikel, of Campbellsville, a skilled workman, and it will take him about five weeks to complete it. Mr. Russell's wife, who died two years ago, made a provision for this work some months before her death. Every body who have dead in the cemetery, will appreciate this generous donation.

Geos to Marion County.

Many of the citizens of Adair county will be sorry to learn that we are to lose Mr. U. N. Whitlock, who has been a prominent farmer of the Bliss country for a number of years. He is not only a good farmer, but a successful financier. He has been the President of the Gradyville State Bank for several years, and under his administration the institution has prospered. Mr. Whitlock, as well as his brother, Ed, who was mentioned in last week's News, have purchased farms in Marion county to which they will soon remove. U. N. Whitlock sold his farm here to Calvin Claycomb at \$70 per acre.

Millinery Opening at Gradyville.

My beautiful display of all the latest styles and fancies in Spring and Midsummer Millinery goods will be formally opened for your inspection and pleasure on Friday, April 4th. Come in and see my beautiful new line.

Mrs. Millie Hill, Gradyville, Ky. 23-2t

The one hundredth anniversary of Odd Fellowship will be celebrated at Jamestown on Sunday, the 27th of this month. An interesting program has been arranged. There will be an abundance of dinner.

Mr. L. B. Hurt received a letter from France Sunday, written by the Captain of Lieutenant Jo Hurt's Company, stating that the latter was in the hospital—had been operated upon for appendicitis. He further stated that Lieut. Hurt was doing well and would be able for duty in a very few weeks.

If it come from Murray's you know it right.

Willie Powell, on the Sam Buidette farm, found a hen's nest last week, with 83 eggs. Mr. Powell thinks that one of his white Leghorns laid all of them, since only one hen was on the nest.

Mr. W. V. Helm has rented a cottage from Mr. Walter Ingram and removed his family, wife and daughter, from Russell Springs Monday. He has been employed by Mr. G. M. Stevenson to run his garage.

I have for sale a limited amount of good Fertilizer at a low price. It will not last long at the price.

John Morgan, at Young & Jones Freight House. 24-3t

Nell & Son are overhauling the building on Water street that they recently bought from Wade Eubank, preparatory for removing their bottling plant.

A valuable dressing for flesh wounds, burns, scalds, old sores, rash, chafed skin, is BALLARD'S SNOW LINIMENT, it is both healing and antiseptic. Sold by Paul Drug Co. Adv.

We learn from the doctors that Columbia is now free from flu. There are a few cases, very few out in the county.

The fruit is not all killed. If we are not visited with more cold snaps, there will be enough for family use.

Will pay you the best market price in cash for your chickens and eggs.

DECLARES DUTIES MUCH EASIER NOW

'I Can Work Like a Turk, Since Taking Trutona,' Miss Marcine Avers.

Louisville, Ky., Apr., 7th, "Trutona has filled me with new energy and ambition and I can work like a Turk now," Miss Mary Marcine, well-known Louisville young woman, of 337 East Market street, stated a few days ago when discussing the great relief from her illness that she derived from the perfect tonic that is now being introduced here.

"I was sick three or four years," Miss Marcine continued. "I had scarlet fever, which left me in a poor physical condition. For a long time I took pills and harsh purgatives which added to my trouble. I was constipated, always felt tired, had no appetite and my head ached constantly.

"I feel wonderfully improved since I began taking Trutona. The constipation has been relieved and I feel like my old self again. I am going home now and finish my washing tonight. Trutona has benefitted me more than any other medicine I ever tried. My head rarely ever aches."

Trutona's mission is to relieve the suffering men and women affected as Miss Marcine was. It seldom fails to give results in cases of constipation, dyspepsia, stomach trouble, nervousness, depression of spirits, impoverished blood and the like. It is a tonic, rebuilding diseased nerves and tissues. Trutona is especially beneficial for catarrhal affections, according to statements of those who have given the preparation a thorough trial.

Trutona, the perfect tonic, that is now being introduced and explained in Columbia at the Paul Drug Co. Adv.

A prudent mother is always on the watch for symptoms of worms in her children. Paleness, lack of interest in play, and peevishness is the signal for WHITE'S CREAM VERMIFUGE. A few doses of this excellent remedy puts an end to the worms and the child soon acts naturally. Sold by Paul Drug Co. Adv.

NOTES ON ADAIR COUNTY.

BY JOHN AVROE STEELE.

(The writing of these notes was suggested by the writings of Judge H. C. Baker, lately published in the Adair County News, and are intended as a supplement to his writings, and will be continued in future numbers of The News, if found to be of interest.)

No. 10.

TRAVELS OF NATHAN MONTGOMERY, JOHN BUTLER, WM. BUTLER AND OTHERS IN ADAIR COUNTY BEFORE ITS SETTLEMENT.

One of those who assisted the elder Nathan Montgomery as a spy, was Capt. John Butler, who served in that capacity for one year. He was born in Maryland, in the year, 1769, and again in Lincoln county, at a very early age. He was reputed among the earlier settlers, of this county, to have been of Indian blood, to the extent of one quarter. He was of ordinary stature and weight, but he had iron muscles, and was of great activity. He could endure the greatest degree of fatigue, and was swift upon foot beyond all of his associates. He was a trained woodman and possessed extraordinary coolness and courage upon occasions of personal danger. He was, also, one of those who came to Adair county with Col. Wm. Casey, in 1789, and thereafter, resided in the county. The traditions of him, are to the effect, that he was honest to the core, charitable to a fault, hospitable, a faithful friend, a kind neighbor, silent in his manner, and never engaged in anything calculated to excite laughter, and had no enjoyment of a joke. He served as a captain of cavalry in the war of 1812, and, also, had a captain's commission in the Black Hawk War, and died in the year, 1839. In the war of 1812, his company, composed a part of the regiment of Kentuckians, of which Col. Young Ewing was the colonel, and Solomon P. Sharp was a Major. Capt. John Butler left, surviving him, a son, whose name, was Champness Butler, and who lived, until his death, in Adair county. Champness Butler left a large family surviving him, at his death, on June 10 1867. His sons, were Nathan Gaither Butler, Col. Edward Butler, Judge John W. Butler, Wm. Butler, Joshua Butler, Isaac Butler, James Butler, and David H. Butler. His daughters were, Mrs. Wyatt Smith, Mrs. Wm. Moore, and Mrs. Jas. Garrett Conover. Nathan G. Butler was a lieutenant of infantry in the Civil War, and Joshua Butler and Wm. Butler served as soldiers in the company of which Nathan G. Butler was a lieutenant. Col. Edward Butler was a lawyer, and Judge John W. Butler served as clerk and judge of the county court, for a term, in each office.

Major Nathan Montgomery and Capt. John Butler were both famous as excelling in the arts of self defense, or rather the old time "fast and skull" fighting, and neither of them was ever known to have come off the second best in a fist-cuff. It is re-

lated, that Col. Wm. Casey, who knew each of them, intimately, was wont to say, that he had seen Montgomery and Butler oftentimes to fight, not with each other, but with other men, and he had never known either of them to be bested, and that he was willing to walk in his bare feet upon the snow for ten miles, to see a fight between them, because it would be an exhibition of courage, endurance, skill, strength and activity, that would be worth while to witness. Casey, however, never had his wish, as Butler and Montgomery remained, at all times, the best of friends, and never desired to test their fighting qualities in a combat with each other.

Nathan Butler, a brother of Capt. John Butler, did duty as a spy and lost his life in a fight with Indians, in which he and Major Nathan Montgomery were engaged, but Montgomery succeeded in escaping.

After Adair county was permanently occupied by the whites, in 1789, Capt. Wm. Butler and Isaac Butler assisted Nathan Montgomery in spying upon the Indians, but what relationship these men were to Capt. John Butler, is not known, except that they were of the same family. Capt. Wm. Butler built a block house and surrounded it with a stockade, which was known as Capt. Wm. Butler's Station. Strange however to say, the exact location of this "station" is not now known, but references are made to it as having once, existed, in the early records of the county.

Major Nathan Montgomery and those who assisted him in spying upon the southern Indians, necessarily went upon foot, and it was, further, necessary, that they should live upon the game found in the forests, as the routes, traveled by them, when upon an extended circuit, led them a great distance from any human habitation. A route over which they frequently traveled, led from the forts and "stations" in Lincoln county, through Casey, Adair, Metcalfe, and Barren, and into Tennessee; through Tennessee, to the neighborhood of the Nickajack Towns, in North Georgia; thence up the Tennessee or Clinch river valleys, and over the Cumberland mountains back to Lincoln county.

Upon one of Montgomery's spying excursions, which he had made, alone, and when near the line of Tennessee and Alabama, he discovered from the signs of preparation, which he saw, that a tribe of Indians was preparing to make a foray against the people of Lincoln county. He, immediately, proceeded to give warning of it, and made such expedition, that upon the last two days of his journey, he walked one hundred and twenty miles or sixty miles upon each of the days, and arrived in Lincoln county so much in advance of the Indians, that when they arrived, they found everything so well prepared for their reception, that they abandoned their purpose and went away.

Washington News.

The new Victory Stamp commemorating the successful outcome of the World War, has just been issued by the Postoffice Department. The denomination is three cents, and in appearance the stamp is very similar to the present three-cent stamp, being the same size and a light purple in color, with the engraved figure of "Liberty Victorious" standing out against a background of flags of the five nations which shared in winning the war. The number of Victory stamps printed is limited, and postmasters have been instructed to supply them to users only when special request is made for them. It is likely that because of the limited edition that the stamps will command a premium before many months pass.

WAR DEPARTMENT CONSIDERATE.

With the continued requests of widows and mothers of the heroes who gave their lives for their country on the battlefields of France, to bring the bodies of their dead back to the United States, a committee of War Department officials has been appointed to investigate records and perhaps visit the battlefields of France, with a view to carry-

ing out the sacred trust. Investigation so far has disclosed that the bodies of many who were buried under battle conditions were not embalmed, and to remove them would jeopardize the health of soldiers who would have the duty to perform. With the consent of many parents and relatives, a plan is being outlined to create a Field of Honor for the soldier dead who will remain in France—a sacred spot fashioned along the lines of the famous Arlington National Cemetery, located just across the Potomac River from the Nation's Capital. The late Colonel Roosevelt was commended by the War Department for the good example he set when he insisted that the body of his son be permitted to remain where he fell and was buried.

SUFFRAGE BILL WILL HAVE LEADER.

Advocates of Woman Suffrage will be cheered by the announcement that Representative Mann of Illinois has agreed to accept the chairmanship of the House Committee on Women Suffrage. This means that the cause will receive attention at the very beginning when the extra session of Congress convenes. Leaders of the Suffrage Party are hard at

work lining up their forces and are already encamped in Washington preparing for the campaign among members of both houses, confident that the Suffrage bill, when reintroduced, will not fail of passage.

WANT GREATEST AIR FORCE.

To have the United States supreme in command of the air is the talk in Washington now. The mistakes of the War Department at the beginning of air-craft building are being forgotten to some extent, and, with the excitement of war out of the way, work in the construction of all types of flying machines is to proceed along safe and solid lines, with the view of slowly but surely outstripping all the other powers of the world in this respect. Numerous types of battle planes, with new devices and appliances, are under consideration by the War Department, but many of them await endorsement until the results are seen from the use of the machines which are scheduled to participate in the proposed fight across the ocean.

WILL PROTECT RADIO-PHONE.

Secretary of the Navy Daniels is highly enthused over the new record he established with the radio-phone when he recently

talked with an ensign in a sea plane one hundred and fifty miles away from his desk in the Navy Department. Mr. Daniels asserts that it will soon be possible to conduct a battle at sea from the admiralty office of any nation, by employing the use of this telephone when it is further perfected. Several radio experts have accompanied him on his trip abroad, with, the idea of placing the Secretary in touch with his office in Washington without the use of wires.

GAME IS NOT OVER.

Historic talk about the Victory Liberty isn't the world always pessimists? In the hour of crisis, when the final victory is to be made, the slacker and pessimist up the "game". A baseball enthusiast was approached by one of the world's afflicted—a doubting Thomas—who could not possibly see America going into her pockets and "putting up" for a few billions for another loan. "It cannot be done," he dolefully concluded.

"It can be done," the other snapped, his eyes speaking

for him the language of the true sporting spirit that may die, but is game to the last ditch.

"You haven't said a word about 'Victory Loan, but you have been taking about a defeated loan. Do you know how Billy Sunday would answer your argument? And you bet your sweet life Billy is right there with good old American punch too. Here is what he said about it:

"Why, you little simp of perdition, you are quitting the game with two out and two strikes on and the 'batter up.' Put over that last ball and put him out! Give the 'Hun' that last wallop that gets the count!"

Is Billy right? All the world may not always agree with Billy at all times, but all the good old United States knows that he talks good sound horse sense when he puts the baseball punch into the "game" we are playing. The boys played a life and death game on the other side. Are we going to quit the game over here at this critical time?

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

Gradyville,

The disease that has been so prevalent in this section, flu, is raging in the western part of the county and just across over in Metcalfe people are dying daily. There have been quite a number of deaths, and at this time there are a number of cases at Weed. Mr. Nathan Moore, the well-known merchant at that place, is at the point of death, while several members of his family are confined to their room.

At the residence of Mrs. C. O. Moss, on last Thursday afternoon, the ladies of our city gathered together in honor of Mrs. Elva Sparks and presented her with a shower of nice presents preparatory for housekeeping. Every lady of our city was a representative. Refreshments were served and the evening will long be remembered by every one present.

Dr. S. Simmons, one of the leading physicians sold his farm last week to Messrs. Rodgers & Blades, of our city, for \$4,500. The Dr. will remain on the farm this year. His intention is not to leave our town, but probably will buy a lot and erect a dwelling according to his own notion.

ANNOUNCEMENT.

FOR STATE SENATOR.

We are authorized to announce Mr. Jas. R. Garnett a Democratic candidate for the State Senate in the District composed of the counties of Adair, Barren and Metcalfe. His candidacy is subject to the action of the voters at the August primary.

Is There a Reason.

Contributed.

The Louisville Evening Times of March 26, has an editorial with the above heading. The subject matter of the article is the votes of Oldham and Simpson counties on propositions to levy a twenty cents tax for road purposes. By his comments the Editor fails to find any reason why the voters by large majorities or any majority at all should fail to endorse the proposition. It rather by implication charges their action to want of judgment and understanding their own interest, and that they in fact do not desire good roads. It is not fair to these people to assume that they do not desire good roads. The editorial commends the enterprise and good citizenship in matters generally. It might be if the Times Editor were among these people that they could give him some reasons for their actions satisfactory to themselves if not to him.

A very large majority in these two counties are owners of real estate or dependant upon agriculture for a living. It is highly probable that these people are very anxious for good roads, and under conditions other than conditions now existing would gladly vote such tax. Since the people are now finding out what was

fixed upon them in the way of a taxing system by the late special session of the Kentucky Legislature they are not much inclined to vote local taxes. They may be hoping for a change at some time. It is a fundamental principal implanted in the minds of all intelligent men who are not wholly selfish, that all taxes for public purposes should be born equally by all the people interested according to ability to pay and benefits supposed to be desired. Now when those Oldham and Simpson county voters come to consider that proposition to vote this tax they may have realized that under the present taxing laws in Kentucky, and applying to their counties that not a cent of this tax would be paid by taxing intangible personal property. Doubtless like all other communities the estates of their wealthy men consist mostly of cash capital invested in securities of one kind and another, and that such property would by law as it now is be wholly exempt from the payment of this road tax. They further realized that under these laws that every thing in the counties that could be classified as a manufacturing institution would be wholly exempt from the payment of any part of it. They know that according to capital invested manufacturing plants cause more wear and tear on roads than any thing else, yet they are exempted. Take for instance a lumber plant such as saw mills, and planing mills, under the law as it now is all their grounds, buildings, uncut logs, and sawed and finished lumber is exempt from road tax, or any local tax whatever.

The same as to grist mills, all its ground, buildings, machinery, wheat, corn and their products are likewise exempt, and the same as to all kinds of operations that can be classed as manufactures. The proposed road taxes are not all these people of Oldham and Simpson counties have to pay. Their local taxes for ordinary and necessary purposes are already greatly increased by these exemptions. It would be an impeachment of the pluck of the Oldham and Simpson county voters if a majority of them are willing voluntarily to burden themselves with additional local taxes so that their taxes to state county and local districts would be annually from \$3 to \$3.50 on each hundred dollars worth of their land, horses, cattle, sheep, hogs, chickens, turkeys, geese, ducks, &c. While his neighbor owning intangible personal property invested in U. S. bonds, State bonds, county bonds, town bonds, or district bonds would not pay a cent of taxes on it either to State, county, town or district. And should it happen that he instead of owning the bonds should lend his money to his neighbor and take his note he would have to pay to the state 40 cents on the hundred but no other taxes whatever. And should he have more money than he found investments for he can deposit with a bank and the bank would pay for him 10 cents on the hundred to the State and if the bank should make him refund to it 10 cents on the hundred to the state would be all he would have to pay to the state or any where else on his cash not invested. It may be that these Oldham and Simpson county voters may be hoping that some

time in the near future that the taxing laws of Kentucky may be made more equal and just and they are waiting for that time before they propose to vote additional taxes for roads.

Mrs. Harriet Rosson and son, Alvin Rosson, have returned from Louisville, where Mrs. Rosson has been treated by a skin specialist for the shingles on her head. She is improving slowly.

Friends.

Although this world is rent by war
God sends his blessings everywhere:
And if for sins we'll make amends
He'll bless our lives with loving friends.

And loving friends from God's own fold
Are better far than paltry gold.

For piles of gold though mountains high
True loving friends can never buy.

True friendship is a gift from God
To ease the pain of sorrow's rod:
Though poverty or riches be
True friends will always stand by thee.

And though your lot be grievous sore
True friends will always help you o'er.
A savage beast I'm sure I'd be
But for the friends He's given me;

And if these friends I would retain
A worthy friend I must remain.

Woodrow Wilson will make the season of 1919 at my farm
Dulworth; Ky., for \$10.00 to insure a living colt.

Woorow Wilson is 16 hands high, dark brown, and is a model of perfection in horse flesh.

His dam was a thoroughbred Abdallah, sire a thoroughbred Coach stallion. He is as good a breeder as there is in Adair county. His colts sell \$100.00 at weaning time.

My Jack, BLACK HAWK, will make the season of 1919 for \$9.00 to sure a living colt.

Black Hawk is a coal black, 7 years old, 15½ hands high, has heavy bone and foot, and the largest head and ears of any Jack in Adair county.

BILL DIX will make the season of 1919 at \$8.00 to insure a living colt. is a large Black Jack, 15 hands, 4 years old, mealy points, an extraordinary breeder. He was sired by Black Hawk, and Black Hawk's grand sire was Isaac Tate's famous Jack at Lebanon, Ky.

Money is due for all services when colt is foaled, or when mare is removed from neighborhood or traded without my consent.

All care taken to prevent accidents, but not responsible should they occur.

EUROPE'S MAP IS VASTLY CHANGED BY WORLD WAR

KINGS DETHRONED AND EMPERORS ABDICATE, MAKING WAY FOR RULE BY PEOPLE.

VICTORY LOAN'S PART

Previous Loans Had Important Part in Winning the War, But This Loan Must Be Floated.

If you will take a look at the map of Europe, and recall the things that have been happening in the last four years you will see at a glance that two-thirds of the European Old World has been overturned in a governmental sense.

There are many vacancies in the old lines of things. The Russian nobility has been wiped out. It has disappeared from the Almanac de Gotha, the Red Book of Royalty.

Kaiser is gone in Germany, a new king in the German states, the king of Rumania, of Bulgaria and of others. There may be others who will follow for there is a strange and new spirit abroad in the world, a new spirit, a very old spirit.

In Europe there are some hundreds of millions of people, freedom craved. Every man of them is, individually, wanting a personal hand in the making of new laws. A million sound and crazy theories of government are being jumbled together.

There is not the slightest objection to their forming such governments as they want. They can reorganize along their own lines. There are no fetters on them. They are free to set up such democratic governments as they want. Doubtless there would be little objection to certain states going back to the monarchial form if the people thought that best.

Right now the Allied nations have a slow and wearisome job. The tedious task of impressing the points of this new deal on the people who are coming into control in the chaotic empires. In brief, the Germanic idea must be stamped out and uprooted.

It is not done we may have to fight this war all over again in fifty years. Therefore we Americans are staying till the end and doing our best to see that there is a new and a fair and square deal. All of which is costing us money, but it is a mighty good way to pay our peace insurance premiums.

Therefore there is a call for another Liberty Loan subscription. Do not get the idea that it is not as important as the others were. Our soldiers are still standing along the picket line of civilization.

Those other Liberty loans were training loans, and transportation loans and fighting loans, but this one is the reorganization, the rehabilitation and reconstruction, the reclamation, peace and rescue loan. And don't let any one tell you that it is the least important of all the loans that have been offered.

We want the world to start out again with a fair chance. We hope to see a good many time honored abuses wiped out forever. We want to see the Prussian spirit tamed and the German spirit in general weakened till it will never again menace the earth. And because of these wishes and hopes we are not turning our backs on Europe. We want to feel safe when it is all over and the treaty signed, sealed and delivered.

The last is the Peace Loan as well as the Victory loan. And we want to make it an enduring peace.

Go the Limit.

It is the fact that Prussianism has been wiped from the face of the earth means anything to you, buy to your fullest ability of Victory Liberty Notes (short-term bonds) in the coming Victory Liberty Loan.

THE MOST SUBSTANTIAL HERITAGE YOU CAN GIVE YOUR CHILDREN IS VICTORY LIBERTY LOAN NOTES.

YOU CAN HELP GET
SCALPERS OF BONDS

The Federal Trade Commission at Washington is in the midst of an investigation of bond scalpers' and stock jobbers' activities.

The Treasury Department and the Capital Issues Committee have submitted to the commission a list of alleged swindlers in which persons were traded doubtful stock and securities for Liberty Bonds.

From commercial and personal interests other data is expected, and the commission is sending broadcast an invitation to individuals to send in any complaints on such transactions.

If any person—man or woman—offers you a stock or security in exchange for your Victory Liberty Bonds get that person's name and all the "literature" offered and mail them to the commission. Just address it: "Federal Trade Commission, Washington, D. C."

WHICH APPEALS-- TO GET INTEREST OR PAY TAXES?

THE NATION OWES BILLIONS FOR WINNING THIS WAR AND MUST PAY IT.

IT IS A DEBT OF HONOR

The Victory Liberty Loan, the Last of a Historic Series, Should Enlist Your Individual Aid.

This country is thinking harder about taxes right now than it has in many years. It is pretty generally understood that when the Government wants money that it has but two important ways of getting the needed funds. It can raise the tax rates, or it can issue bonds. Of the two methods it is a great deal easier on the taxpayers of the present to issue bonds. Also when the taxes are about as high as can be levied it is almost necessary to float a bond issue rather than to pile taxes upon taxes.

The income taxes are not raising the money that was expected in some quarters. For instance it is the general belief in the cities that the farmers are wonderfully prosperous and yet but 14,000 filed income tax returns. And there are more than 6,000,000 farmers in America!

Others who are not swelling the income tax lists to any great extent are the men in the mechanical trades, an industry that has been receiving the highest wages ever paid.

The failure of the income tax scheme to raise the amounts expected has forced the Government to look further for the necessary money. The extraordinary demands that will be made on the nation's resources for the reconstruction period have made it necessary to float a Fifth or Victory Liberty Loan. The ordinary ways of money raising will not give the sums required even should their results greatly increase.

The failure of money raising by means of popular loans will mean the placing of consumption taxes on tea, coffee, hides, wool and other household necessities. Raising this money by means of subscriptions to a Liberty Loan is by far the easier way both for the Government and for the taxpayer. He lets the country have his money, he gets the bond and the interest that accrues. As the years pass the strain of the war will lessen and a reserve of funds will be built up to take care of the Liberty Notes (short term bonds) as they fall due.

We have all been profiting by the funds raised in the earlier Liberty Loans. Paid out in wages in war plants, for foodstuffs from the farms or for materials used in war industry, most of the money has remained in the United States. What is true of these loans will be true of the Fifth. It will aid every man and every business in America during the difficult after the war days.

BUSINESS MAN HAS NOTHING TO FEAR IN PRESENT CONDITION

Readjustment Period Will Be Passed When Victory Loan Is Floated.

Mr. Business Man, do not be afraid when the fifth and final Liberty Loan campaign begins on April 21. Do your patriotic duty and your business duty to yourself. Support the loan with your money and your work. Back up the boys who have made peace a reality instead of a possibility.

We are beginning to pass through the brief period of readjustment. Do not let temporary conditions influence your participation in the Victory Liberty Loan. The nation, by April 21, will have passed the crisis in the great readjustment necessary to put the country back on a peace basis.

Instead of going into the Victory Liberty Loan as you have done in the previous loans with the prospect of higher prices and greater difficulty in doing business confronting you, you will be doing your share to pay for the victory won, with the prospect of better business conditions. No one need fear to make a large initial payment on bond purchases.

By helping the government take care of our wounded, bring home our boys from across the water, maintain what forces we must keep overseas, and pay our national war debt, you help yourself. The Victory Liberty Notes (short-term notes) probably will be the best of all. They will bear an attractive rate of interest and will be for a short term of years.

Remember the Boys.

If you appreciate the victory that our boys in khaki and blue have won in order that you may enjoy the peace that is now ours, subscribe to your limit in the Victory Liberty Loan. Make this, the fifth and last Liberty Loan, the biggest success of all Liberty Loans. The nation needs your money now to "finish the job."

It Is Good Business to Subscribe to the Victory Liberty Loan

IT is freely stated that the VICTORY LIBERTY LOAN should be floated on a business basis. It is contended that the rate of interest and terms should be attractive to banks and investors with idle funds.

We are assured that the terms of the Loan will be attractive, but it matters not what the terms are, there is not enough idle money available to take up a loan of five or six billion dollars.

It would be bad business for the banks to absorb the Loan. It would be bad for the banks and it would be bad for our community.

Good business demands that the banks keep their funds in such shape that they can loan money to their customers when it is needed. If the banks use their funds to purchase Liberty Bonds, their ability to loan money to business men and farmers is lessened. The question is shall the banks loan their money to Uncle Sam or to our people?

If our people buy the Bonds the banks will lend them the money they need to complete the payments. This will not affect the ability of the banks to take care of the loans to our business men and farmers, because the banks can rediscount the notes given for Liberty Bonds and thus replenish their funds.

It is good business for our people to subscribe to the VICTORY LIBERTY LOAN and thus keep the banks free to take care of their regular borrowers.

If business can get the money it needs, more crops will be grown, more goods will be made, more people will be employed.

For purely selfish business reasons our people should subscribe to the VICTORY LIBERTY LOAN. For patriotic reasons, also, we should all do our part. The money raised by the VICTORY LIBERTY LOAN will be largely used to pay for bills already contracted in winning the war. We must keep the credit of our Government untarnished. What American would refuse to do his share in keeping bright the name of our glorious country?

We are not quitters. Let's finish the job as only real Americans know how.

HERE IS GLORIOUS THOUGHT FOR THIS EASTER MORNING

IN AMERICAN HOMES IT IS NO LONGER NECESSARY TO READ CASUALTY LISTS.

WE ARE CALLED TO ARMS

We Must Furnish Our Dollar As a Measure of Gratitude For Victory.

"Why seek ye the living among the dead?" was asked of the disciples on a memorable Easter morn some nineteen hundred years ago and the sound of the questioner's voice brought joy to the hearts of the disciples.

In thousands of American homes today there is no longer need of seeking news of the living in the daily casualty lists. The strain and worry of uncertainty has been removed from the hearts of thousands of American parents and in its place has welled a spring of gratitude which must seek expression.

Gratitude not only for the son's return in good health and with broadened outlook, but for the return of the millions of other sons who shared the glorious work of making the world a better place in which to live.

Hostilities have ceased over there, but the call to arms is sounding over here. "The Victory Liberty Loan, the thanksgiving loan, the loan that is to pay for the great victory and wipe the slate clean is to be offered the people of the United States on April 21.

Uncle Sam needs this money to pay for the vast military preparations necessary to defeat the Hun. Our war preparations were at the high mark of production when the Germans gave up. To pay for the war supplies contracted for to bring the boys home and to finance the period of readjustment of business conditions will require billions of dollars. We must furnish them as a measure of our gratitude that the war is to be paid for in American dollars instead of in valued American lives.

PEOPLE GENERALLY MUST ABSORB LOAN OR HURT BUSINESS

If Banks Were Forced to Take Victory Issue They Would Exhaust Money.

That the Victory Loan, like its four predecessors, must be a "people's loan" is especially stressed by Carter Glass, secretary of the treasury, in a statement to the public. It is not to be a "bankers' loan." The nation's business situation depends upon as wide a distribution as possible of the Victory Notes (short-term bonds).

The banks, it is pointed out, must be left free to advance money for business purposes; to the merchants and manufacturers and the farmers. If all the banks' money is tied up in loans to the government, it stands to reason that there will be none left to lend on crops. It would mean "tight money," which means high interest rates and refusal to extend notes and a general hardship upon the men who depend upon the banks to assist them in carrying on business and agriculture.

The need for the billions the Victory Loan will bring is plain to any man who stops to think. The war is not over, though the actual fighting has ceased. The bills are still running up. Millions of men are still in uniform, drawing pay and food and clothing. The secretary of the treasury declares:

"Government contracts cannot be repudiated. The goods must be paid for in full. Our shipbuilding activities must be carried out."

So, it can easily be seen that the job is not finished. What would you think of a farmer who built him a house, laying the foundation, putting up the walls, ceiling the rooms—and forgetting the roof?

The roof will not be put on our national house until the job is finished and the bills paid.

The campaign for Victory bonds will begin on April 21. The exact details of the issue have not as yet been announced, but it is considered certain that the notes (short-term bonds) will be made an unusually attractive investment.

YOU ORDERED VICTORY. PAY THE PRICE—NOT IN TAXES, BUT IN LENDING TO UNCLE SAM. FIFTH LIBERTY LOAN.

IT'S NO TIME TO GO ROUND PUTTING UP A POOR MOUTH

LOOK YOURSELF IN THE EYE AND THEN ANSWER SOME PERTINENT QUESTIONS.

HAVE YOU DONE DUTY?

Before Answering Think of What Our Boys Did on the Other Side.

Have you got the idea that you've done all you can afford to do for your Uncle Sam and the boys who did your fighting at the front?

Have you told yourself that you have bought all the Liberty Bonds you can carry?

That you have taken every single, possible War Saving Stamp that you can take care of?

And that you have given every possible red cent to the war aid societies, including the Red Cross?

So you are satisfied, are you, now that the war is over, that you will let the rest of the country take care of the balance of the war?

Do you stand up and stick your thumbs in the arm hole of your vest and talk whinnily about the way you are being asked to subscribe?

And looking yourself in the eye can you call yourself a red-blooded, 100 per cent, a loyal dyed-in-the-wool sort of an American?

Do you feel that you are just as much responsible for the victory as the chap who went across and lost an arm? Or a leg, or an eye? Just as much as the lad who lost his hearing, or his life, or all the future there was for him?

Think of This Boy?

A search party following a National Guard Division through the woods west of the Meuse came upon a German machine gun pit that had been hit by an American shell. There were five dead Huns in it. A few yards away lay a lone American, who had been closing in on them. The top of his head was gone, but he lay facing the gun pit with his arms full of hand grenades. Now, have you done everything possible? Have you done your part as well as that lonely American who was boring straight in when the Huns got him?

Have you done as much as the other fellow who stayed at home and who believed in the war, who did what he could, who went into debt and is now saving and skimping and sacrificing to finish his bond payments?

You know whether you are a quitter or not. You know whether you have done all that you could. You know whether you are in the mood to lay down at the finish—to quit like a mongrel strain racer that feels the spur.

Are You a Slacker?

As a matter of plain fact there are millions of Americans who never did all that was in their power in the way of buying Liberty Bonds. They had the "quitting" strain in them right along. They weren't "slackers." They did a lot. But they never put that last ounce of pull into the collar.

The man who is able to buy bonds is putting himself in the "quitter" class when he fails to come through on the Fifth Loan. We went into this thing with our old Uncle Samuel. We swore that we would see it through. We all want the ghastly mess cleaned up and done with. We want the lads back home, going about their business, working, playing, making love, marrying, making homes and building up a great country.

But we are not out of the woods yet. We don't know when we will be. Having started this, it must be finished. We have gone too far to quit now and come home and forget about it.

There is only one honorable thing to do. We must stay abroad until our obligations have been fully and fairly met. To do this there must be support, full, hearty and complete support, financially and otherwise, in the Victory Liberty Loan.

BONDS ARE LISTED AT PAR

National Convention of Insurance Men Recognize Liberty Security Values.

The national convention of insurance commissioners recently decided that in the auditing of all insurance companies for the year ending December 31, 1918, par would be allowed for all Liberty Bonds.

Financiers see in this action of the always careful and always conservative insurance commissioners a certain indication that the present low prices of Liberty Bonds of the first four issues are only temporary and that the bonds are soon to go above par.

The action should be an incentive to the private owner of Liberty Bonds to hang on.

A Vote of Thanks.

The people of the United States will cast their vote of thanks to their brave sons who whipped the Germans when they buy Victory Liberty Notes (short-term bonds) in the Victory Liberty Loan.

HOW BEST TO CUT DOWN THE INCOME TAX NEXT SPRING

FOR EVERY VICTORY LIBERTY BOND BOUGHT YOU PAY THAT MUCH LESS IN TAXES.

NO INTEREST ON TAXES

The Government Owes Huge Debts Contracted to Win the War and They Must Be Paid in Full.

DO YOU WANT TO CUT DOWN YOUR INCOME TAX?

It can be done. And there are mighty few of us who would not like to see taxes, including income taxes, somewhat reduced.

After you had worked and wrestled around with that income tax and got it all figured out, how did you feel about it? Didn't it sort of shock you when you multiplied to get that old six per cent?

Didn't the realization that you would have to pay out just so many cold "iron men" sort of startle you?

Yes, it did most of us. Whether that income was \$1,000 or \$10,000 it came with a distinct shock, that discovery that we were then and there indebted to our Uncle Samuel by just so many dollars that must be paid.

However, big as the income tax was, it would have been a great deal bigger if you and all your friends and relatives and everyone else's friends and relatives had not bought so heavily of Liberty Bonds in the past.

It is also easy to see that unless the American public, which includes you and me and all of us, buys heavily of the Victory Liberty Loan, the income tax and the various other government taxes will not grow any lighter very soon.

Every man who wants the income tax rate to come down before January 1, 1920, ought to buy just as liberally of Victory Liberty Bonds as possible.

But what has the income tax got to do with Liberty Bond issues? More than a little. All this extra money that is being raised in this country for Government purposes is going, directly or indirectly, as the case may be, to aid in payment of the war debt.

And, if they are not paid out of loans, they must be paid out of taxes. To attempt to pay these debts off by straight taxation would be crushing taxation. It simply could not be done. The country is not wealthy enough, great as are its riches and wonderful as its resources are, to stand such crushing blows of taxation as would be necessary to clean up all the debts, right off the reel by taxation alone.

So the government is lessening the immediate blow as much as possible, by floating this bond issue and thus spreading the cost of the war over the years of the future and make the annual burden just so much lighter.

Therefore that income tax blank over which you slaved and sweated awhile back was a mighty good argument for the Victory Liberty Loan if you will just look at it that way. The six per cent net income figure was a mighty biting argument.

And if there was anything on that income tax blank, saying anything about the government ever giving any of that income tax money back to you, well, nobody saw anything of the kind.

Just recall that the Liberty Bond money comes back to you, on the solemn promise of the United States Government, the Government that never broke a promise. A tax paid is money gone, but a Liberty Bond is an investment.

Nor was there anything on that income tax blank about the government paying you a cent of interest on the income tax payments. No indeed, you were paying the Government—and no mention was made of any return, or of any interest.

A Liberty Bond is an interest-bearing security. It is an investment and not a tax.

To lessen the income tax and other taxes that must be paid in the future buy Liberty Bonds, all you can of the Victory Loan.

LOAN TO BOOM BUILDING

Construction Work Is Speeded Up on Eve of Victory Note Campaign.

Statistics compiled by Bradstreet's indicate that a building boom is under way. Official reports from 95 cities show a gain of 24.2 per cent for February this year over that month last year.

Good gains are shown in St. Louis, Cincinnati, Columbus, Detroit, Indianapolis, Toledo, New York, and a dozen other cities.

Building is one of the barometers of prosperity. The boom—the real, big boom which is bound to come this summer—is being held in check by the prospect of the Victory Liberty Loan. With the Victory Loan out of the way—and popularly subscribed—the banks will be in a position to open up on real estate loans and building will flourish.

Your Liberty Bond subscription is the measure of your patriotism.

Married in Cincinnati.

The marriage of Miss Minnie Ingram, daughter of Mr. and Mrs. W. I. Ingram, of this place, to Mr. Paul Hamilton of Cincinnati, was quite a surprise to the people of Columbia.

The bride was teaching in Pendleton county, near Cincinnati, the groom seeing her often. Three years ago the groom resided with his parents in this place, and it was while the couple were attending the High school they became sweethearts. The recent meetings rekindled the old love, and their union followed.

The groom is a well educated and capable young man, and at this time is holding a lucrative position.

The bride, who was one of Columbia, best young ladies, is at present, spending a few days with her parents, and meeting her many friends.

Death of a Good woman.

Mrs. Lelia Johnson, who was the beloved wife of Mr. J. E. Johnson, Glenville, died last Sunday afternoon. She was loved by the entire neighborhood, and her death brought not only sorrow to her husband and children, but to a large circle of friends. All friends are in sympathy with the bereaved husband and children and they would admonish them to look to God for comfort. He alone can heal the broken hearts. The funeral was largely attended.

There are several glass out of the cupola of the court-house and other repairs are necessary on the building. The Fiscal Court which will meet the first of next month should look after this necessary work, which should be done in order to save the building.

For the next month business in Columbia will be dull. The farmers are busy, and are not coming to town. We can all afford to wait. When the farmer fails, every body fails.

Columbia, was shaking hands with our people one day last week.

We all regret to note that two of our best citizens of this part of the county are going to leave, Messrs. U. N. and E. S. Whitlock, of Bliss. They are both up-to-date business men and have been a great help to this county in progressing everything that is for the county. They have bought farms in Marion county. Mr. Ed and family will leave in a few days for their new home and his brother will move later. We certainly can commend these good peoples to any community.

We are glad to note that our community at this time, is clear of flu, whooping cough, measles and all other contagious diseases so far as we know, and our regular services, preaching and Sunday school work will be pushed. We have recently learned that our two Sunday schools, that were held at our two churches, one in the morning and the other in the afternoon, have consolidated and there will be only one Sunday school in our city as we get it. The school will be held three months at the Methodist church, using Methodist literature while at the Methodist church, and next quarter at the Baptist church, using Baptist literature. We trust this change in the schools will be for the best interest of the community at large, and we will be able to get more people interested and have a much larger attendance.

Rev. B. T. Watson will preach a Easter sermon at Union on the resurrection, the third Sunday. If you want to hear a good sermon, come out on the third Sunday. There will be some preparation for decoration of the church, preparatory for Easter.

Something like four months ago, while your reporter was out in his lot, where he had several hands slaughtering his hogs, he dropped from his pocket a very valuable gold watch, something he appraised next to his help mate, and as soon as it was ascertained that his watch was gone, every hand was called from labor, and a diligent search was made for every step that was made by him and the lost property could not be found. While it was gone four long months and no one ever heard of it, the valuable watch came up very mysteriously one evening last week in a very public place where it could have been very

easily seen by anyone, in a good state of preservation, beating the same old tick as it did the day it was dropped from his watch pocket. I take this means of thanking the one that had my watch for taking such good care of it and returning it in a good state of preservation.

GRADYVILLE STOCK FARM

BOHEMIAN LEADER.

The Best all Purpose Horse that has ever been in Adair county. Will make the present season at his home in Gradyville at \$25.00 to insure.

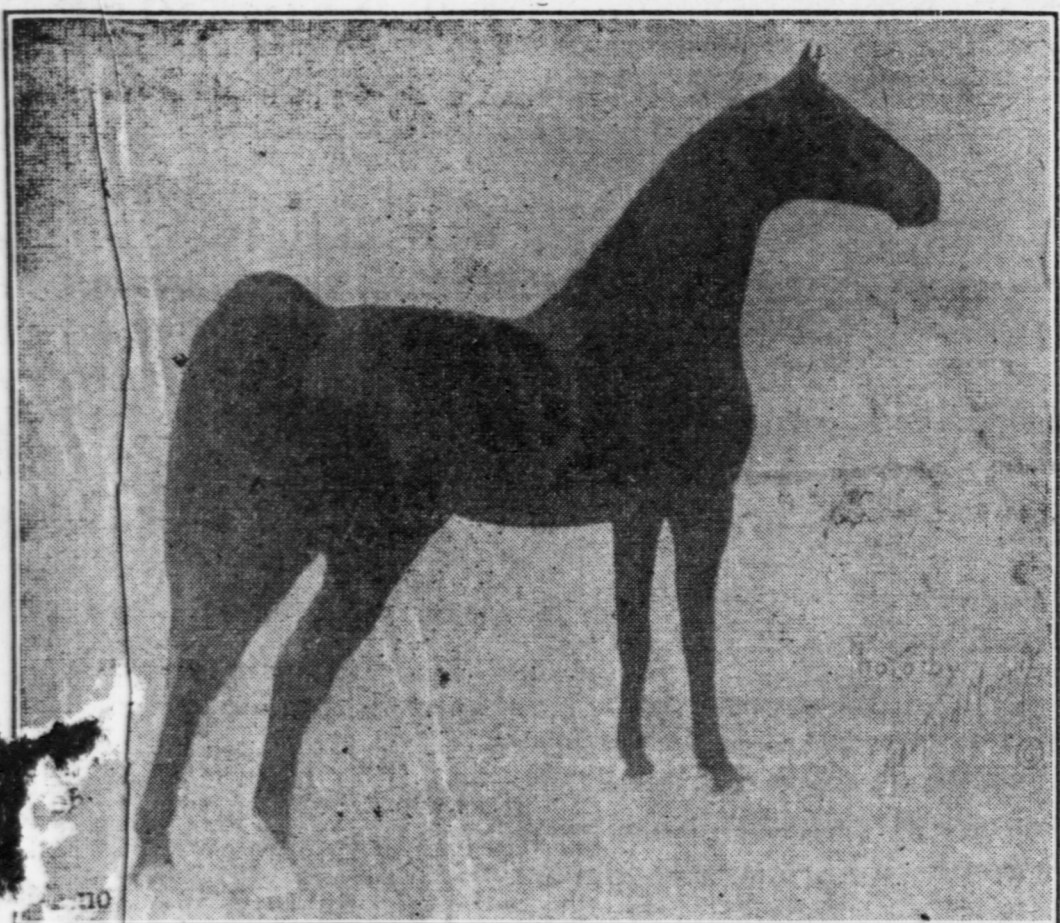

Leader is 4 years old, 16 1-2 hands, weight 1175 pounds, has the best material style at both ends I have ever saw. His head and tail is always up. He has the best set of feet and legs I ever saw under any horse. Never have seen him standing on 3 feet. He has a world of speed and action, was shown when 1 year old at Danville, Harrodsburg, Perryville and Lexington, 4 of the best fairs in Ky., and won the Blue tie every time he entered the ring. Some record in the strongest competition in the United States. As the records of his family of horses will show in this ad that the people of Adair and adjoining counties have never had the opportunity to breed their mares to as good a horse as Bohemian Leader. The first proof is his present owner had to go down in his pocket for \$1000.00 to pay for this colt at 1 year old and the next proof is he was sired by a \$10,000 Stallion.

Bohemian King 2410 and the 3rd proof is his Dam is American Girl by Montgomery Chief 1361 and sold by Ball Bros., of Versailles, Ky., for \$5000.00 and his second dam is Queen Denmark No. 1140 by first Denmark, 3rd, dam by Rosco and Rosco by Blue Jeans No. 3, 4th dam by Membrino finest Leaders sire, Bohemian King was by Bourbon King. Bourbon King by Bourbon Chief he by Harrison Chief he by Clark Chief. Bohemian Kings 2nd dam was by Joe Patchen and Joe Patchen was the sire of Dan Patch 155 the fastest horse in the world. When you breed to Leader you are breeding to the richest Blood lines that is known to the horse family. Read on down the line of this ad and see the records of a few of his closest relatives. Every horse mentioned in this ad is closely bred to Bohemian Leader

W. L. GRADY, Prop.

I have 5 Jacks at \$10.00 to insure from 15 to 16 hands. These Jacks are well known and there is no better any where. Some of their mules 2 and 3 years have sold from \$500.00 to \$600.00 a pair and if any Jack owner thinks he has a better breeder than my Jacks I will put up \$100.00 and show 10 mule colts on the public square in Columbia, Ky., at weaning time and the money to go to the owners of the colts that wins the prize for the get of the best Jack. Mr. Joe E. Wright of Junction City, Ky., the big Jack man, told me last year that he had sold Hubbles Bregnolia for \$2200.00, Napoleon for \$3240. These 2 Jacks are the Grand sire of my Jacks. Highway on his sire and dam side, the best bred Jack in Ky.

RICHLIEU KING, 3042.

Annie C. 3025 was the greatest daughter of Wilson's King 2196, and was probably the greatest brood mare of her day. She was a large chestnut, 16 hands, blaze and two white feet, bred by R. B. Young, Mt. Sterling, Ky., foaled in 1891, and died in 1918, the property of W. M. & A. G. Jones, North Middletown, Ky. Her dam was by Richlieu by Indian Chief 1718, second dam by Ky., Chief by Indian Chief 1718, thus making her an inbred Morgan through the great show horse and sire Indian Chief 1718. She is the dam of Montgomery Chief, 1361, winner of the world's championship at the St. Louis World's Fair in 1904. He is the sire of Nazimova 50-41 and Montgomery Gay 2876, the sire of Montgomery Gay 2876, the sire of Montgomery R. 3455 and Montgomery Dare 2316, the sire of Judge Montgomery 4913. Montgomery Chief is also the sire of Daisy Fields 2635, that sold when four years old for \$7,500, American Girl 3024 \$5,000, Montgomery Ward 2337, as a three-year-old \$2,500, Chester Chief 2678, as a three-year-old, \$1,000. Moreland Chief 2362 as a two-year-old, \$1,000, Shooquon 3721, \$1,000, Bracken King 4879 as a three-year-old \$1,000 and many other show horses. Annie G. is also the dam of Bourbon King 1788, which was never defeated except once in the harness ring by the great show horse Star McDonald 1712. He is the sire of the three great show horses and sires, Astral King 2865, sire of I Am King 6084, unbeaten in 1915, when shown at the Missouri, Iowa, Illinois State fairs, winner of the \$500 junior sweepstakes at Missouri State Fair in 1916. He also won first for fine harness gelding, four years old and over, and second for five-gaited saddle gelding, four years old and over at the Kentucky State Fair in 1918. Bourbon King is also the sire of Bohemian King 2410, sire of Bohemian Master 5846 and Richlieu King 3042, sire of Richlieu's Nazimova 18947.

BOURBON KING, 1788.

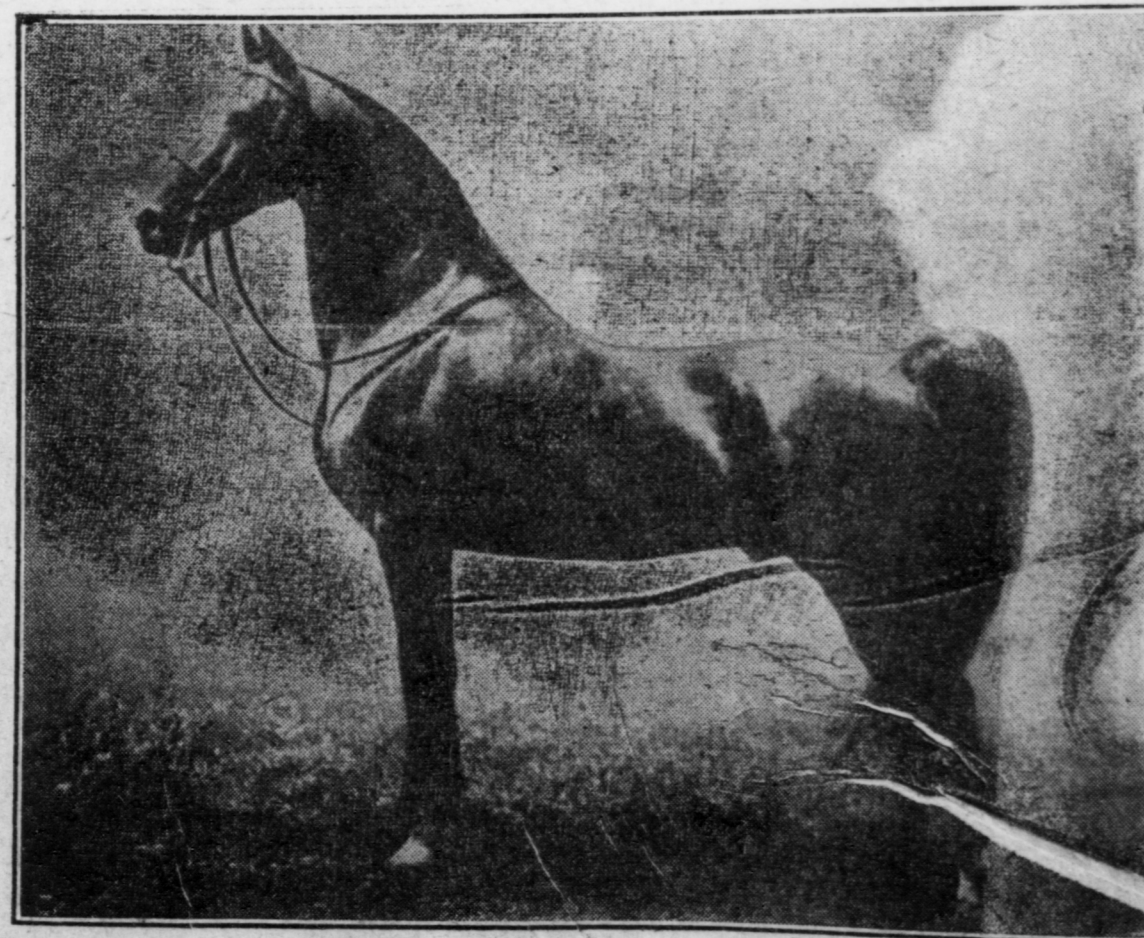

Bohemian Art, Bohemian Music and Bohemian Actris.

This mare is a full sister to Bohemian Leader and was shown 3 times at the Kentucky State Fair last year and won 3 Blue ties under saddle and harness. Bohemian King the sire of Leader won the championship 3 years in succession at the Ky. State Fair, something never accomplished by no horse except Bourbon King and Richlieu King. The latter horse has won the stallion class in the \$10,000 saddle stake in the years 1917 and 1918.

This family of horses won every dollar that has been put up at the State Fair from suckling colts to 4 years old and over. If you want to raise the best colt you ever saw, if you want saddle horses breed to Leader, if you want harness horses breed to Leader, if you want wagon horses breed to Leader, if you want a first-class brood mare, either for colts or mules, breed to Leader. He has the size, style and action and the price charged for this horse is only from half to one-third as much as it would cost you to breed to his sire and grand sire. His sire, Bohemian King, stands for \$50.00. His grand sire, Montgomery Chief and Bourbon King's fee is \$75.00 each. So I only charge you one-third and you breed to as good a horse as there is in America.

Lynching and How it Could be Ended.

Editor News:

Sixteen men have been convicted and sentenced at Winston-Salem, North Carolina, for an attempt to lynch a negro. Nothing is more certain than that the custom of lynching is to pass away. It is not so widespread by any means as is indicated by news items from time to time, but if there were only one lynching a year it would still remain an evil of the first class.

The clumsiness of American court procedure, the unconstitutionality of most action intended to prevent friction between races and to encourage the development of racial life among the negroes, both contribute to it.

The fulmination of negro haters and of those who associate themselves for the purpose of exciting the negroes contribute to it in an equal degree.

Nothing would hasten the day when lynching shall cease more than an entire separation of the question from other questions. The matter of separate coaches on railway trains, of residential segregation, of the right of franchise, and all other questions of right or privilege or expediency should be entirely dissociated from the question of lynching, which would then be attacked as an evil by every section of the country and would not survive a year.

It is an encouraging fact that 999 out of every 1,000 white men

in communities where there are many negroes live from youth till death without ever seeing so much as a hint of racial hatred or strife. It is remarkable that in the main relations of the two races are so near to affection.

In the last analysis, white men are responsible for all of the machinery of law and the courts. Theoretically and practically, it is possible for the white men of the country to deal with court procedure and with the crimes which provoke lynching by their horror or by suggested threat of horrible things. For them to abandon their own laws, their own courts, their own officers, is to indict and insult themselves.

Lynching brutalizes and demoralizes and is essentially cowardly. It should and must stop. It can and will be stopped in the South by the South, in the West by the West, in the North by the North—there is the conviction and the character in every section to do it, and it is inevitable.

Mrs. Harriet Rosson still stays in a bad condition with erysipelas.

We thought a few nights ago that the Germans had broke loose again, but turned out the neighbors were giving Mr. and Mrs. Ernest Stotts an old fashion charivari. The guns could be heard for miles.

Mr. A. C. Frodge, post master and merchant at Breeding, came near getting killed a few

nights ago. The brake rope became tangled up in the left wheel and the mules jumped quick, breaking the rope releasing the pole, which flew back and hit Mr. Frodge on the nose mashing it flat breaking an artery on the inside of his head. He was in a critical condition for a day or so, but is better now.

Prof. F. A. Strange made a business trip to Marrowbone last week.

Mr. J. N. Sparks bought a fine horse mule from Mr. Ruben McKinney a few days ago for \$150. He also sold Mr. McKinney one fine horse colt for \$100, and one calf for \$20.

T. J. Tompson sold to Willie Bragg ten acres of fine land for \$100.

Mr. Roy Garmon and family left for Illinois a few days ago. We hated to give them up as they were good neighbors.

Mr. and Mrs. John Moran of Columbia visited Mrs. Harriet Rosson last Sunday.

Mr. James Rosson bought of Martin Rowe last week a fine young saddle horse for \$150.

There has been several cases of the flu around Dirigo, but they are improving slowly.

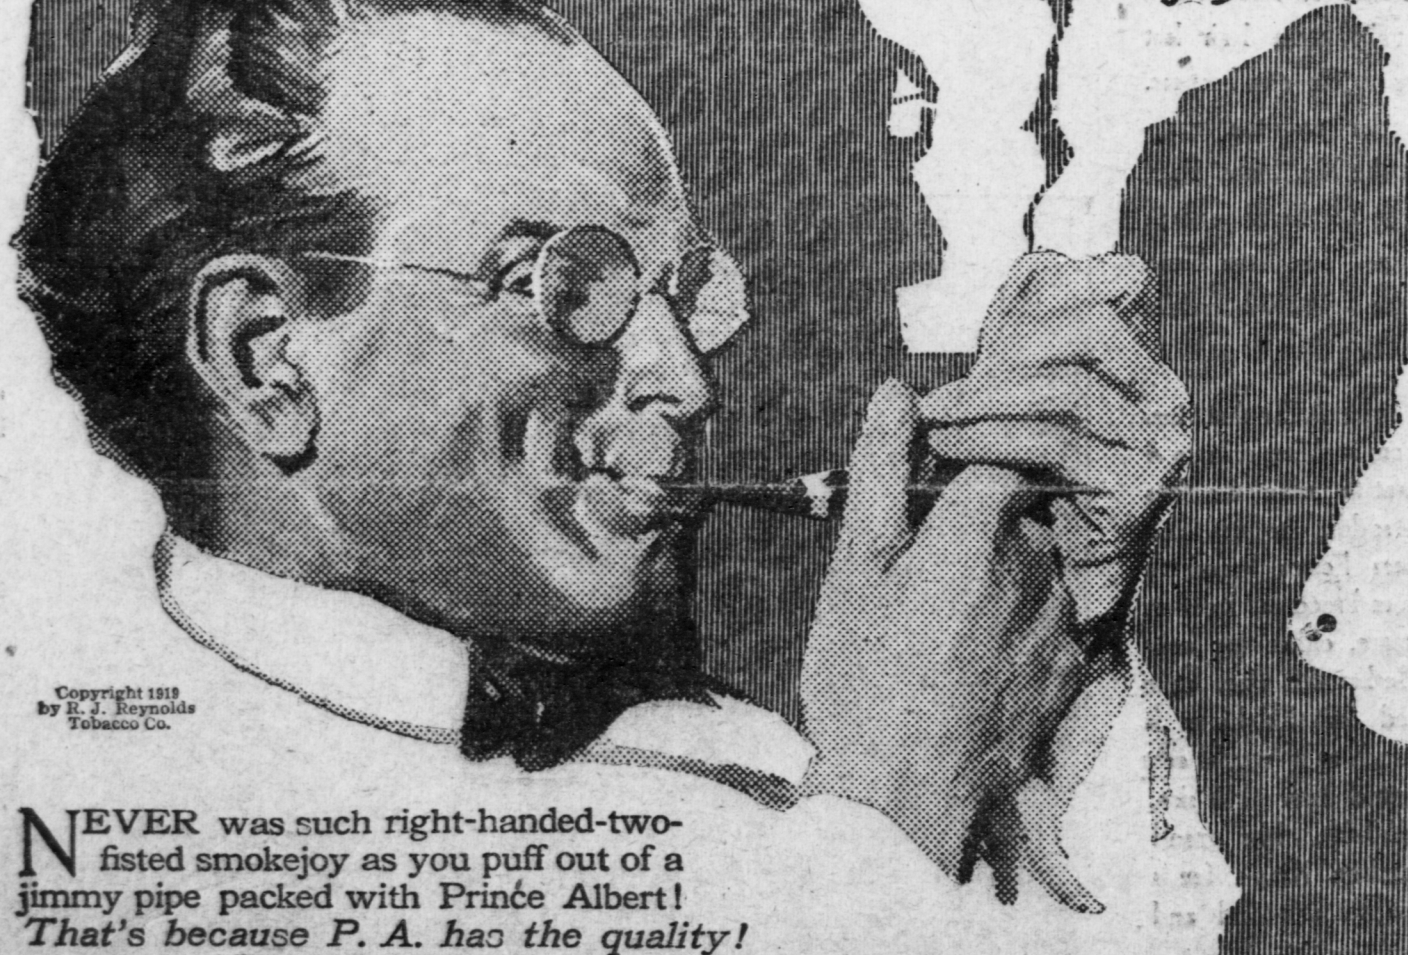

We understand some one a few nights ago entered Mr. Tom Wooten's residence near Dirigo, and stole some money.

People here are planting out their gardens.

the national joy smoke

NEVER was such right-handed-two-fisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Toppy red bags, tidy red tins, handsome pound and half-pound tin humidor—and that classy, practical pound crystal glass humidor with sponge moisture top that keeps the tobacco in such perfect condition.

Certain-teed

Roofing

Certain-teed renders a war service.

Certain-teed saves war supplies, because it is made of materials which have no use in war products. It serves war needs because it provides our armies, and peoples everywhere, with efficient, economical roofing.

Certain-teed saves war transportation, because it is so compact that it takes minimum car space, and so easy to handle that it requires the minimum time to load and unload.

Certain-teed saves war labor. It can be laid in less time than any other type of roof; and no skill is required—anyone who will follow the simple directions that come packed in the center of roll can lay it correctly.

The durability and economy of *Certain-teed* are recognized the world over, as proved by its enormous sale. It is now the standard roof

for factories, office buildings, hotels, stores, warehouses, garages, farm buildings, etc.

Guaranteed 5, 10 or 15 years, according to thickness. Sold by best dealers everywhere.

Backed by Majority.

Paris, March 14 (by A. P.)—The return of President Wilson is welcomed by the morning newspapers in editorials. The Journal says that it means early and positive results from the Peace Conference, adding:

"There is no doubt the President comes back with the full resolve to wind up the war promptly."

The editorial writers also are occupied with the present state of public opinion in America. The Figaro says that the United States, by sharing in the war and by the prominent role it is playing at the Peace Conference, has become one of the principal actors in European and world policies, but adds:

"But will the United States desire to be of the same mind once the treaty of peace is signed? Will it not rather yield and go home for good, leaving Old Europe to work out its salvation by itself? The sudden withdrawal of the United States would have regrettable consequences because there are several problems which we, the British, Italians and French, would settle in quite a different way than if America was a factor. As far as can be judged, however, it does not seem that such an eventuality is to be feared."

"Making all allowances for internal political quarrels in America it may be said that President Wilson's policy in its main lines is approved by a majority of his fellow citizens. Many of them, it is true, ask modifications of the League of Nations plan, but after all, at the present time it is only a draft of the text."

What The One Is Doing— The Other Should Do—And More

Officers and Directors Of The Two Companies Largely The Same

Get this straight—there are two
companies! The one is the Kentucky
Mansfield Lead and Zinc Syndicate, and the
other is the Louisville Mansfield Lead and
Zinc Company. It is the success of the for-
mer that has led to the organization of the lat-
ter—to do just what the former is already
doing but on a larger scale. The officers and
directors of the two companies are very
largely the same.

It Is The Record Of The One That Makes The Other So Promising

The Kentucky Mansfield Lead and
Zinc Syndicate is already in operation
and is already paying dividends. It paid a
monthly dividend of 2% in January, 3% in
February and dividend checks of 3% are now
going out for March. The Louisville Mans-
field Lead and Zinc Company's holdings are in
the same territory, are larger, will be operated
in the same manner and should pay even
larger dividends.

Certificate of Assay

"The entire sample used for assay. Fairly soft na-
tive rock and an easy milling ore, breaking clean which
should give a high recovery. Sample accompanied by
affidavit as to sample."

The above report was made by W. P. Taylor, the
chemist, from samples taken by J. R. Sandage in the
presence of Mr. C. O. Storm, Mrs. J. S. Long and Mrs.
J. H. Havens, who swear to the taking of these samples
on the property of the Mansfield Mining and Developing
Company, before Joseph R. Pile, a Notary Public, of
Joplin, Missouri.

A Share

The Louisville Mansfield Lead and
Zinc Company is capitalized at \$500,-
000.00—at \$1.00 a share, fully paid up and non-
assessable. A very large part of this has al-
ready been subscribed—indeed, the company
is fully organized and is already sinking the
first shaft for the first mill on one of the four
tracts (of 40 acres each) on which it holds the
leases.

These holdings of the Louisville
Mansfield Lead and Zinc Company are
at Mansfield, Missouri, where the Mother
Lode of the famous Ozark district comes
nearest the surface. The 40-acre tract on
which the sinking of the first shaft has already
begun is immediately adjoining that of the
Kentucky Mansfield Lead and Zinc Syndicate.
